

# Federal and State Financial Assistance Available

LMCpress provides competitively-priced products designed to help businesses accelerate their recovery from the COVID-19 pandemic. In many areas, federal and/or state assistance may be available to help fund the cost of these installations:

- For more information about federal assistance available through the Small Business Administration, visit [www.sba.gov](http://www.sba.gov).
- For more information about state assistance through the Kansas Department of Commerce, visit <https://www.kansascommerce.gov/covid-19-response/covid-19-response-business-incentives/>.
- For more information about state assistance through the state of Missouri visit <https://sbdc.missouri.edu/sbdc-covid-19-resources>.

You can also contact the Missouri or Kansas Chambers of Commerce or your local Chamber of Commerce for more information on COVID-19-related financial assistance for businesses.

# BUSINESS in the POST-COVID-19 ERA

LMCpress, a division of Lenexa Manufacturing Company (LMC), introduces a new line of products custom-designed to provide an extra layer of biosecurity for employees and customers as businesses re-open in the wake of the COVID-19 pandemic.

LMCpress continues the LMC legacy of providing rapid design and manufacturing of hard-to-find components for industrial manufacturing applications.

Today, we're using that expertise to help businesses revitalize their operations by providing a wide selection of acrylic or polycarbonate barriers and partitions, and touchless door opening products, essential for getting business operations up and running in the post-COVID-19 era.

# A New Era of Workplace Biosecurity

In the wake of the COVID-19 pandemic, **acrylic is quickly becoming one of the most efficient, effective materials we can use** to provide see-through barriers that allow people to interact where adequate social distancing for employees is difficult. Acrylic is already being incorporated in a wide variety of business environments including:

- Hair and nail salons
- Office cubicles
- Office or public bathroom spaces
- Restaurants and cafeterias
- Hotels
- Long-term health care facilities
- Checkout stations in retail businesses
- Movie theaters
- Banks

Food service companies use barriers to protect employees and guests.

# Providing Complete, Customized Solutions

LMCXpress products are custom-designed to the workspace, whether it's the front desk of a hotel, a cashier station or a restaurant table. Our designs allow businesses to conduct essential, day-to-day transactions while providing an additional layer of biosecurity for both employees and customers. LMCXpress provides complete, turnkey custom design of polycarbonate or acrylic partitions and barriers:

- **CONCEPT:** We design exactly what you need, customized to your businesses' operational structure, space and design aesthetic.
- **MANUFACTURING:** All of our designs are manufactured and assembled at our state-of-the-art facility in Lenexa, Kansas.
- **INSTALLATION:** We handle all aspects of the installation of your customized pieces.
- **UNINSTALLATION:** If there comes a time your custom pieces are no longer needed, contact us for hassle-free dismantle and removal.

Our designs can incorporate materials such as polycarbonate or acrylic. We can work with a variety of materials to tailor our designs to the aesthetic of the space in which they'll be used, to provide extra biosecurity that blends seamlessly with the space's décor and design.

# Our Products

LMCXpress provides a variety of barrier and partition-type modules that can be customized to fit any business environment. These include:

- Front Desk Acrylic Barrier with Slot
- Safety Cashier Guard
- Safety Acrylic Divides & Barriers
- Safety Mobile Barrier Guards
- Single Panel Acrylic Table Barriers

We've also designed a line of "touchless" door opener products, to allow employees and customers to open and shut doors and other shared surfaces without touching the actual surface, thus decreasing the likelihood of spreading COVID-19. These are the **Safety Door Opening Tool** and the **Safety Door Foot Pull**.
